Our survey was overwhelmingly positive as the percentages in the first two columns show and the selection of positive comments. However, we are always striving to improve and constantly review our practice, taking into account the feedback we receive throughout the year, including results of surveys. We had very few comments suggesting improvements or dissatisfaction but where we did, they were related to these areas:

- Amount of homework set
- Safety relating to general COVID situation and not the school's safety procedures.
- Specific issues with individual children which we'd hope to resolve with parents directly at the time of the concern.

**You can be assured that all of your feedback helps us to develop our School Improvement Plan as we continue to strive to provide the best education we possibly can for your children.**

**Thank you to all who took the time to respond.**
